Publications

Allen Newell

9 March 1992

(Publications listed in rough inverse chronological order. Unpublished papers included where material is not otherwise available. Reprintings included where they increase accessibility.)

1. Lehman, J. F., Lewis, R., & Newell, A., "NL-Soar: Architectural influences on language comprehension", in *Cognitive Architecture*, Pylyshyn, Z., ed., (publisher under selection), <address>, 1992, (In press. Presented at a conference at Rutgers, Nov 91)

2. Lehman, J. F., Newell, A. Polk, T. A., & Lewis, R., "The role of language in cognition: A computational inquiry", in *Conceptions of the Human Mind*, Harman, G., ed., Erlbaum, Hillsdale NJ, 1992, (in press)

3. Newell, A., Young, R., & Polk, T. A., "The approach through symbols", in *The Simulation of Intelligence*, Broadbent, D., ed., Basil, Oxford, England, 1992, (in press)

4. Prietula, M., Hsu, W-L., Steier, D., & Newell, A., "Applying an architecture for general intelligence to scheduling", *ORSA Journal on Computing*, 1992, (in press)

5. Rosenbloom, P. S. & Newell, A., "Symbolic Architectures: Organization of Intelligence I", in *Exploring Brain Functions: Models in Neuroscience*, T. Poggio & D. A. Glaser, eds., John Wiley & Sons, Chichester, England, 1992, in press

6. Newell, A., "Unified theories of cognition and the role of Soar", in *Perspectives on Soar*, Michon, J., & Anureyk, A., eds., Kluwer, Norwell, MA, 1991, in press

7. Carley, K., Kjaer-Hansen, J., Prietula, M., & Newell, A., "Plural-Soar: A prolegomenon on artificial agents and organizational behavior", in *Artificial Intelligence in Organization and Management Theory*, Masuch, M., ed., Elsevier, New York, 1991, (in press).

8. Harvey, W., Kalp, D., Tambe, M., McKeown, D., & Newell, A., "The effectiveness of task-level parallelism for production systems", *Journal of Parallel and Distributed Computing*, Vol. 13, 1991, pp. 395-411.

9. Polk, T., Newell, A., & VanLehn, K., "Analysis of Symbolic Parameter Models: A new technique for fitting models in cognitive science", Tech. report, School of Computer Science, 1991, Preliminary Version, Unpublished

10. Rosenbloom, P. S., Newell, A., & Laird, J. E., "Towards the knowledge level in Soar: The role of the architecture in the use of knowledge", in *Architectures for Intelligence*, VanLehn, K., ed., Erlbaum, Hillsdale, NJ, 1991.

11. Simon, T., Newell, A., & Klahr, D., "Q-Soar: A computational account of children's learning about number conservation", in *Computational Approaches to Concept Formation*, Fisher, D., & Pazzani, M., eds., Morgan Kauffman, Los Altos, CA, 1991.

12. Lehman, J. F., Lewis, R. L. & Newell, A., "Integrating knowledge sources in language comprehension", *Proceedings of the Cognitive Science Thirteenth Annual Conference*, Cognitive Science Society, Aug 1991.

13. Carbonell, J., Mitchell, T., & Newell, A., "The diversity metric for intelligent systems", in *Collected Notes from the BenchMarks and Metrics Workshop (NASA Ames, June 25, 1990)*, Drummond, M. E., Kaelbling, L. P., & Rosenschein, S. J., eds., NASA Ames Research Center, Artificial Intelligence Branch, 1991.

14. Carley, K., & Newell, A., "The Nature of the Social Agent", Soar Project, School of Computer Science, Carnegie Mellon University (unpublished), Jun. 1991

15. Newell, A., Yost, G., Laird, J. E., Rosenbloom, P. S., & Altmann, E., "Formulating the problem space computational model", in *Carnegie-Mellon Computer Science: A 25-Year Commemorative*, Rashid, R. F., ed., ACM-Press: Addison-Wesley, Reading, MA, 1991.

16. Newell, A., "Metaphor for mind, theories of mind, should the humanities mind?", in *Boundaries of*

Humanity: Humans, animals and machines, Sheehan, J., and Sosna, M., ed., University of California Press, Berkeley, CA, 1991.

17. Newell, A., & Steier, D., "Intelligent Control of External Software Systems", Tech. report EDRC 05-55-91, Engineering Design Research Center, Carnegie Mellon Univeristy, 1991.

18. Lehman, J. F., Lewis, R. L. & Newell, A., "Natural Language Comprehension in Soar: Spring 1991", Tech. report CMU-CS-91-117, School of Computer Science, Carnegie Mellon University, 1991.

19. Rosenbloom, P. S., Laird, J. E., Newell, A., & McCarl, R., "A preliminary analysis of the Soar architecture as a basis for general intelligence", *Artificial Intelligence*, Vol. 47, 1991, pp. 289-325, (also to be published in D. Kirsh & C. Hewitt, ed., *Workshop on Foundations of Artificial Intelligence*, MIT Press, Cambridge, MA, in press)

20. John, B. E., Vera, A. H., & Newell, A., "Towards Real-Time GOMS", Tech. report CMU-CS-90-195, School of Computer Science, Carnegie Mellon University, 1990.

21. Newell, A., *Unified Theories of Cognition,* Harvard University Press, Cambridge, MA, 1990.

22. Tambe, M., Newell, A., & Rosenbloom, P., "The problem of expensive chunks and its solution by restricting expressiveness", *Machine Learning*, Vol. 5, 1990, pp. 299-348.

23. Altmann, E., Newell, A., & Yost, G. R., "Mapping domains to computational models: Shared concerns of problem spaces and object-oriented systems", *Proceedings of the Workshop on Finding the Object*, Object-Oriented Programming Systems, Languages and Applications Conference, OOPSLA/ECOOP, Ottawa, Canada, Oct. 1990, (extended abstract)

24. Lewis, R., Huffman, S., John, B., Laird, J, Lehman, J. F., Newell, A., Rosenbloom, P., Simon, T., & Tessler, S., "Soar as a Unified Theory of Cognition: Spring 1990", *Proceedings of the Cognitive Science Twelfth Annual Conference*, Cognitive Science Society, July 1990.

25. Polk, T. A., Newell, A., & VanLehn, K., "Fitting Symbolic Parameter Cognitive Models: A proposal for the ASPM System", Soar Project, School of Computer Science, Carnegie Mellon University, July 1990 (unpublished).

26. Harvey, W., Kalp, D., Tambe, M., McKeown, D., & Newell, A., "The effectiveness of task-level parallelism for high-level vision", *Proceedings of the ACM/SIGPALAN Symposium on Principles and Practices of Parallel Programming*, Mar. 1990.

27. Card, S. & Newell, A., "Cognitive Architectures", in *Human Performance Models for Computer-Aided Engineering*, Elkind, J., Card, S., Hochberg, J., & Huey, B. M., eds., Academic Press, San Diego, CA, 1990, pp. 173-179, (Originally published as National Reserach Council report, Jan. 1989)

28. John, B. E., & Newell, A., "Toward an engineering model of stimulus-response compatibility", in *Stimulus Response Compatibility: An integrated perspective*, Proctor, R. W., & Reeve, T. G., ed., North Holland, New York, 1990.

29. Newell, A., "Are there alternatives", in *Acting and Reflecting: The interdisciplinary turn in philosophy*, Sieg, W., ed., Kluwer, Dordrecht, The Netherlands, 1990.

30. Gupta, A., Forgy, C. L. & Newell, A., "High-speed implementations of rule-based systems", *ACM Transactions on Computer Systems*, Vol. 7, 1989, pp. 119-146.

31. Newell, A., Rosenbloom, P., & Laird, J., "Symbolic architectures for cognition", *Foundations of Cognitive Science*, Posner, M. ,ed., MIT Bradford Books, Cambridge, MA, 1989.

32. Newell, A., "The quest for architectures for integrated intelligent systems", *Proceedings of IJCAI-89*, American Association of Artificial Intelligence, August 1989, Extended abstract (not included in proceedings by error). Reprinted in *Proceedings on Innovative Approaches to Planning, Scheduling and Control*, Sycara, K. P., ed., Morgan Kaufmann, San Mateo, CA.

33. Yost, G., & Newell, A., "A problem space approach to expert system specification", *Proceedings of IJCAI-89*, American Association of Artificial Intelligence, August 1989.

34. Ruiz, D., & Newell, A., "Tower-noticing triggers strategy change in the Tower of Hanoi: A Soar model",

Proceedings Cognitive Science Eleventh Annual Conference, 1989, Cognitive Science Society, August 1989.

35. Lewis, R. L., Newell, A., & Polk, T. A., "Toward a Soar theory of taking instructions for immediate reasoning tasks", *Proceedings Cognitive Science Eleventh Annual Conference, 1989*, Cognitive Science Society, August 1989.

36. Polk, T. A., Newell, A., & Lewis, R. L., "Toward a unified theory of immediate reasoning in Soar", *Proceedings Cognitive Science Eleventh Annual Conference, 1989*, Cognitive Science Society, August 1989.

37. Hsu, W., Newell, A., Prietula, M., & Steier, D., "Sharing scheduling knowledge between intelligent agents", *Proceedings of the AAAI-SIGMAN Workshop on Manufacturing Scheduling, The National Conference on Artificial Intelligence*, Aug 1989, (Only an extended abstract appears in proceedings; paper available from Soar Project, School of Computer Science, Carnegie Mellon University)

38. Harvey, W., Kalp, D., Tambe, M., McKeown, D., & Newell, A., "Measuring the Effectiveness of Task-level Parallelism for High-level Vision", Tech. report CMU-CS-89-125, School of Computer Science, Carnegie Mellon Univeristy, 1989.

39. Newell, A., "How it all got put together: A story", in *Complex Information Processing: The impact of Herbert A. Simon*, Klahr, D., & Kotovsky, K., eds., Erlbaum, Hillsdale, NJ, 1989.

40. Newell, A., "Putting it all together", in *Complex Information Processing: The impact of Herbert A. Simon*, Klahr, D., & Kotovsky, K., eds., Erlbaum, Hillsdale, NJ, 1989.

41. John, B. E., & Newell, A., "Cumulating the science of HCI: From S-R compatibility to transcription typing", in *Proceedings of CHI'89 Human Factors in Computing Systems*, Association for Computing Machinery, New York, 1989.

42. Rosenbloom, P. S., Laird, J. E., & Newell, A., "The chunking of skill and knowledge", in *Working Models of Human Perception*, Bouma, H. & Elsendoorn, B. A. G., ed., Academic Press, London, 1988, pp. 391-410.

43. Kalp, D., Tambe, M., Gupta, A., Forgy, C. L., Newell, A., Acharya, A., Milnes, B., Swedlow, K., "Parallel Ops5 User's Manual", Tech. report CMU-CS-88-187, Computer Science Department, Carnegie-Mellon University, Nov. 1988.

44. Newell, A., "Introductions and remarks", in *A History of Personal Workstations*, Goldberg, A., ed., ACM Press, (Addison-Wesley, distributor), Reading, MA, 1988.

45. Newell, A., "The intentional stance and the knowledge level: Comments on Daniel Dennett, *The Intentional Stance*", *Behavioral and Brain Sciences*, Vol. 11, 1988, pp. 520-522.

46. Polk, T. A., & Newell, A., "Modeling human syllogistic reasoning in Soar", *Proceedings Cognitive Science Tenth Annual Conference, 1988*, Cognitive Science Society, August 1988.

47. Steier, D., & Newell, A., "Integrating multiple sources of knowledge into Designer-Soar, an automatic algorithm designer", *Proceedings American Association of Artificial Intelligence, 1988*, American Association of Artificial Intelligence, August 1988.

48. Tambe, M., Kalp, D., Gupta, A., Forgy, C. L., Milnes, B. & Newell, A., "Soar/PSM-E: Investigating match parallelism in a learning production system", *Proceedings of ACM Conference on Parallel Processing*, Association of Computing Machinery, July 1988.

49. Gupta, A., Tambe, M., Kalp, D., Forgy, C. L., & Newell, A., "Parallel implementation of OPS5 on the Encore Multiprocessor: Results and analysis", *International Journal of Parallel Programming*, Vol. 17, 1988, pp. 95-124.

50. Gupta, A., Forgy, C. L., Kalp, D., Newell, A., & Tambe. M., "Parallel OPS5 on the Encore Multimax", *Proceedings of the International Conference on Parallel Processing*, August 1988.

51. Tambe, M. & Newell, A., "Some Soar Chunks are Expensive", *Proceedings Fifth International Conference on Machine Learning*, Cognitive Science and Machine Intelligence Laboratory, University of Michigan, June 1988.

52. Rosenbloom, P. S. & Newell, A., "An integrated computational model of stimulus-response compatibility and practice", in *Psychology of Learning and Motivation, Vol. 21*, Bower, G. H., ed., Academic Press, New

York, 1988.

53. Rosenbloom, P. S., Laird, J. E., & Newell, A., "Meta-levels in Soar", in *Meta-Level Architectures and Reflection*, P. Maes & D. Nardi, eds., North Holland, Amsterdam, 1988.

54. Yost, G., & Newell, A., "Learning New Tasks in Soar", Soar Project, Computer Science Department, Carnegie-Mellon University, Feb 1988 (unpublished).

55. Tambe, M. & Newell, A., "Why some Soar Chunks are Expensive", Tech. report CMU-CS-88-103, Computer Science Department, Carnegie-Mellon University, Jan. 1988.

56. Newell, A., "Keynote Address", *Human Factors in Automated and Robotic Space Systems: Proceedings of a symposium*, National Academy Press, Washington, DC, 1987, (also: Comments on expert systems and their use; Concluding remarks).

57. Gupta, A., Forgy, C. L., Kalp, D., Newell, A., & Tambe. M., "Results of parallel implementations of OPS5 on the Encore Multiprocessor", Tech. report CMU-CS-87-146, Computer Science Department, Carnegie Mellon University, Aug. 1987.

58. Laird, J. E., Newell, A., & Rosenbloom, P. S., "Soar: An architecture for general intelligence", *Artificial Intelligence*, Vol. 33, 1987, pp. 1-64, (Also available as CMU CSD Technical Report, Jan 1987).

59. Newell, A., & Simon, H. A., "Postscript on the Tenth Turing Award Lecture: Computer science as empirical inquiry: Symbols and search", in *ACM Turing Award Lectures: The first twenty-five years, 1966-1985*, ACM Press, New York, 1987.

60. Rosenbloom, P. S., Laird, J. E., & Newell, A., "Knowledge-level learning in Soar", *Proceedings of the American Association of Artificial Intelligence - 1987*, Morgan Kaufman, Los Altos, CA, August 1987.

61. Steier, D. E., Laird, J. E., Newell, A., Rosenbloom, P. S., Flynn, R. A., Golding, A., Polk, T. A., Shivers, O. G., Unruh, A., & Yost, G. R., "Varieties of Learning in Soar: 1987", *Proceedings of the Fourth International Workshop on Machine Learning*, Morgan-Kaufman, Los Altos, CA, June 1987.

62. John, B. E., & Newell, A., "Predicting the time to recall computer command abbreviations", *Proceedings of CHI'87 Human Factors in Computing Systems*, Association for Computing Machinery, New York, April 1987.

63. Newell, A., "Unified Theories of Cognition", The William James Lectures. Harvard University, Spring 1987. (Available in vidocassette from Harvard Psychology Department).

64. Rosenbloom, P. S. & Newell, A., "Learning by chunking: A production-system model of practice", in *Production Systems Models of Learning and Development*, Klahr, D., Langley, P. & Neches, R., eds., MIT Press, Cambridge, MA, 1987, (published as Tech Report Computer Science Department, Carnegie Mellon University, Oct 1982)

65. Newell, A. & Card, S. K., "Straightening out softening up: Response to Carroll and Campbell", *Human Computer Interaction*, Vol. 2, 1986, pp. 251-267.

66. Laird, J. E., Rosenbloom, P. S., & Newell, A., "Overgeneralization during knowledge complilation in Soar", in *Proceedings of the Workshop on Knowledge Compilation*, Dietterich, T. G., ed., Department of Computer Science, Oregon State University, Corvallis, OR, 1986.

67. Newell, A., "Response: The models and broken, The models are broken!", *Pittsburgh Law Review*, Vol. 47, 1986, pp. 601-613.

68. Newell, A., "The knowledge level and the symbol level", in *Meaning and Cognitive Structure: Issue in the computational theory of mind*, Pylyshyn, Z. W., & Demopoulos, W., eds., Ablex, Norwood, NJ, 1986.

69. Card, S. K., Moran, T. P., & Newell, A., "The Model Human Processor: An engineering model of human performance", in *Handbook of Perception and Human Performance*, Boff, K. R., Kaufman, L., & Thomas, J. P., eds., Wiley, New York, Vol. 2, 1986, ch. 45.

70. Gupta, A., Forgy, C. L., Newell, A., & Wedig, R., "Parallel algorithms and architectures for rule-based systems", *Proceedings 13th International Symposium on Computer Architecture*, June 1986.

71. Laird, J. E., Rosenbloom, P. S., & Newell, A., "Chunking in Soar: The anatomy of a general learning

mechanism'', *Machine Learning*, Vol. 1, 1986, pp. 11-46.

72. Newell, A., ''Forward'', in *Universal Subgoaling and Chunking*, Laird, J., Rosenbloom, P. & Newell, A., eds., Kluwer Academic Publisher, Boston, MA, 1986.

73. Rosenbloom, P. S., Laird J. E., Newell, A., Golding, A., & Unruh, A., ''Current Research on Learning in Soar'', in *Machine Learning: A guide to current research*, Kluwer, Boston MA, 1986.

74. Laird, J., Rosenbloom, P. & Newell, A., *Universal Subgoaling and Chunking*, Kluwer Academic Publisher, Boston, MA, 1986.

75. Simon, H. A. & Newell, A., ''Information Processing Langauge V on the IBM 650'', *Annals of Computing*, Vol. 8, 1986, pp. 47-49.

76. Rosenbloom, P. & Newell, A., ''The chunking of goal hierarchies: A generalized model of practice'', in *Machine Learning: An artificial intelligence approach II*, Michalski, R. S., Carbonell, J. & Mitchell, T., eds., Morgan Kaufman Publishers, Los Altos, CA, 1986.

77. Newell, A. & Card, S. K., ''The prospects for psychological science in human-computer interaction'', *Human-Computer Interaction*, Vol. 1, 1985, pp. 209-242.

78. Newell, A., ''Citation Classic: C. G. Bell & A. Newell, *Computer Structures: Readings and examples*'', *Current Contents: Physical, chemical & earth sciences*, Vol. 25, 1985, pp. 16.

79. Rosenbloom, P. S., Laird, J. E., McDermott, J., Newell, A. & Orciuch, E., ''R1-Soar: An experiment in knowledge-intensive programming in a problem-solving architecture'', *Pattern Analysis and Machine Intelligence*, Vol. 7, 1985, pp. 561-569, (Also available in Two Soar Studies, CMU CSD Technical Report, Jan 1985; and in the *Proceedings of the IEEE Workshop on Principles of Knowledge-Based Systems*, IEEE Computer Society, Dec 1984).

80. Newell, A., ''Duncker on thinking: An inquiry into progress in cognition'', in *A Century of Psychology as Science*, Koch, S. & Leary, D., ed., McGraw-Hill, New York, 1985, (also available as CMU CSD Technical Report, Jan 1981)

81. Habermann, N., McDermott, J., Newell, A., & Reddy, R., ''Computer Science and the Universe of Disciplines'', Computer Science Department, Carnegie-Mellon University, July 1985 (unpublished).

82. Newell, A., ''Architectures for intelligence: Between the symbol and the knowledge level (summary)'', *Proceedings Cognitiva 85*, CESTA: Centre d'Etude des Systemes et des Technologies Avancees, Paris, June 1985.

83. John, Bonnie E., Rosenbloom, P. S. & Newell, A., ''A theory of stimulus-response compatibility applied to human-computer interaction'', *Human Factors in Computer Systems: Proceedings of CHI'85*, ACM SIGCHI, April 1985.

84. Newell, A., ''Comments in 'Artificial Intelligence — Where are we?', Bobrow, D. G. & Hayes, P. J., eds.'', *Artificial Intelligence*, Vol. 25, 1985, pp. 375-415, (Comments available as a whole as *Reflections on some questions about artificial intelligence: For the 25th volume of the AI Journal*).

85. Laird, J. E., Rosenbloom, P. S., Newell, A., McDermott, J., Orciuch, E., ''Two Soar Studies: Towards chunking as a general learning mechanism; and R1-Soar, An experiment in knowledge-intensive programming in a problem-solving architecture'', Tech. report, Computer Science Department, Carnegie-Mellon University, Jan 1985, (Reprint of two conference papers).

86. Newell, A., ''On computers, creativity and management'', in *Creative and Innovative Management*, Charnes, A. & Cooper, W. W., eds., Ballinger, Cambridge, MA, 1984.

87. Newell, A., ''Introduction to the COMTEX Microfiche edition of Reports on Artificial Intelligence from Carnegie-Mellon University'', *AI Magazine*, Vol. 5, No. 3, 1984, pp. 35-39, (Also with the COMTEX Microfiche collection).

88. Newell, A., ''Foreword'', in *Rule-Based Expert Systems: The Mycin experiments of the Stanford Heuristic Programming Project*, Buchanan, B. G. & Shortliffe, E. H., eds., Addison-Wesley, Reading, MA, 1984.

89. Forgy, C. L., Gupta, A., Newell, A. & Wedig, R., ''Initial assessment of architectures for production

systems'', *Proceedings of AAAI84*, American Association of Artificial Intelligence, Menlo Park, CA, 1984.

90. Laird, J. E., Rosenbloom, P. S. & Newell, A., ''Towards chunking as a general learning mechanism'', *Proceedings of AAAI84*, American Association of Artificial Intelligence, Menlo Park, CA, 1984, (Also available in Two Soar Studies, CMU CSD Technical Report, Jan 1985).

91. Robertson, C. Kamila, & Newell, A., ''Experimental Evaluation of Five Techniques for Teaching for the ZOG Frame Editor'', Tech. report, Computer Science Department, Carnegie-Mellon University, June 1984.

92. Newell, A., ''An on-going case study in technological innovation'', in *Advances in Information Processing in Organizations*, Sproull, L. S. & Larkey, P. D., eds., JAI Press, Greenwich, CT, Vol. 1, 1984.

93. Kant, E. & Newell, A., ''Problem solving techniques for the design of algorithms'', *Information Processing and Management*, Vol. 20, 1984, pp. 97-118, (Also available as CMU CSD Technical Report, Nov 1982).

94. Newell, A., ''Endnotes on the Papers on Artificial Intelligence'', in *The Study of Information: Interdisciplinary Messages*, Machlup, F. & Mansfield, U., eds., Wiley, New York, 1983.

95. Newell, A., ''Reflections on the structure of an interdiscipline: Comments on a paper by Zenon Pylyshyn'', in *The Study of Information: Interdisciplinary Messages*, Machlup, F. & Mansfield, U., eds., Wiley, New York, 1983.

96. Newell, A., ''Intellectual issues in the history of artificial intelligence'', in *The Study of Information: Interdisciplinary Messages*, Machlup, F. & Mansfield, U., eds., Wiley, New York, 1983, (Also available as CMU CSD Technical Report, Nov 1982).

97. Newell, A., ''Cognitive Science and Artificial Intelligence (Summary of Briefing Panel Report)'', *News Report*, Vol. XXXIII, No. 10, December 1983, pp. 3A-5A, (A publication of the National Academy of Sciences).
